

BOW SOFA

CONTEMPORARY COLLECTION

Design Lisa Hilland 2017

BOW SOFA is a playful sofa where the art of bending wood is challenged to its fullest. With its unique design the sofa is carried by only three bows.

The solid bent ash makes BOW SOFA as strong as it is light. Treated with matte hardwax oil in different colors.

The thin, almost floating seat gives a high comfort thanks to the high quality natural upholstery. Dressed in vegetable tanned leather, available in many different colors.

BOW SOFA was originally designed 2013 and updated 2017 to the design of today.

Despite its light weight BOW SOFA is designed to endure hard wear in any busy interior. Just as suitable in hotels, restaurants and offices as well as in the living room at home.

Swedish handcraft made to customer order in 8 weeks.
