

GRACELL CHAIR

CLASSIC COLLECTION

Design YNGVE EKSTRÖM, 1956

GRACELL is a light and elegant dining chair, made in European beech and vegetable tanned leather.

Despite it's low weight GRACELL is yet both durable and comfortable.

GRACELL was designed 1956 by Yngve Ekström, one of the most appreciated designers of the time.

The chair was designed with inspiration from the classic Italian Chiavari chair, but with a clear resemblance to the Gemla bentwood chairs.

Actually, designed 1 year before the world famous Superleggera by Gio Ponti.

It instantly became a huge success, and was sold until mid 1960's.

The chair was re-launched to the Gemla collection 2018, now with hand sewn seat of vegetable tanned tooling leather.

GRACELL is offered in several different color combinations.

Swedish handcraft made to customer order in 8 weeks.
