

KOBBE STOOL

CONTEMPORARY COLLECTION

Design Gemla

KOBBE is a light and elegant stool based upon the bent wood tradition and skills at Gemla.

It is designed as a comfortable stool for seating, but works just as well as a foot rest for any lounge chair or as a side table for a tray.

KOBBE is made with legs and seat of solid steam bent beech, treated with VOC-free oil or lacquer.

The upholstery is of highest possible comfort and quality. Horse hair, natural latex and certified wool, ensuring high comfort and a long life with graceful ageing.

KOBBE is offered in vegetable tanned leather or textile, with wood in many different colors.

KOBBE is suited for any lounge area. Hotels, restaurants, offices or at home.

Swedish handcraft made to customer order in 8 weeks.
