

BUTLER MIRROR

CONTEMPORARY COLLECTION

Design Mathieu Gustafsson 2019

Solid bent European beech and 6 mm mirror glass.
Treated with hardwax oil, stain or lacquer.

This elegant mirror is exploring the art of steam bent wood to it's full.
Like a humble servant, the mirror frame stretches out to carry your
favourite garment.

BUTLER is created with the hotel room in mind, but is just as
suitable for the private bedroom or hallway.
The hidden metal bracket ensures an easy and secure hanging.

BUTLER is available in various colors.

Swedish handcraft made to customer order in 8 weeks.
