

CROW HOOK

CONTEMPORARY COLLECTION

Design Sara Helder & Gert Wingårdh 2019

Solid bent European beech, treated with hardwax oil, stain or lacquer.

CROW hook is a masterpiece in wood bending, stretching what's possible to its maximum. Due to the unique strength of steam bent wood this elegant hook can despite its lightness carry a heavy load.

CROW is available in various color combinations, and is a part of a family of hooks and mirrors.

Swedish handcraft made to customer order in 8 weeks.
