

GEMLA OPEN LOUNGE CHAIR CONTEMPORARY COLLECTION

Design Samuel Wilkinson 2022

GEMLA OPEN is an oversized and generous lounge chair, inspired by the Gemla heritage of making tennis rackets.

GEMLA OPEN combines the classic techniques of steam bending solid wood and traditional paper cord weaving, but with a contemporary expression.

Due to its clever design and strong fabrication techniques Gemla Open is very strong and durable, despite its low weight.

The natural fillings of hairlok and wool and built in seat flex offers a high seat comfort, where the strong and flexible strings embraces your back.

The frame is made in solid steambent ash with hand braided paper cord and cushions in vegetable tanned leather, available in many different colors.

GEMLA OPEN is designed to suit for any lounge area. Hotels, restaurants, offices or at home.

Swedish handcraft made to customer order in 8 weeks.
