

HOLME POUF

CONTEMPORARY COLLECTION

Design Mia Cullin 2023

HOLME is a petite pouf for the public area as well as the private living room.

Inspired by the traditional chef's hat designer Mia Cullin has created a playful and elegant pouf where the textile's soft creases plays the major role.

The clever center stitching gives HOLME a unique design as well as high seat comfort.

The light and strong wooden stand in solid steam bent ash is crowned by the soft seat, generously upholstered with natural fillings of horsehair, latex and soft wool.

Thanks to it's light and and strong construction HOLME is most suitable for interiors with need for flexibility and great ware and tear.

HOLME is offered in several soft natural textiles and different wood colors.

Swedish handcraft made to customer order in 8 weeks.
